**Subject:** Reply to the Science and Engineering and Disaster Preparedness Proposal

Dear Mr. Manlapaz,

Warm greetings!

This refers to your proposal introducing an alternative, comprehensive, and transformative educational opportunity through Immersive Science and Engineering Topics and Disaster Preparedness through the Travel Learning Experience under the 1<sup>st</sup> MMJ Travel and Event Production.

We appreciate your initiative in offering experiential learning activities that aim to enrich learners' academic and personal development. Such programs contribute meaningfully to learner engagement and holistic education when aligned with existing policies and procedures of the Department of Education.

In this regard, we respectfully inform you that prior to the issuance of any separate advisory by the Schools Division Office (SDO) of the City of San Fernando, approval and issuance of an official advisory from the Regional Office is required. This process ensures proper review, policy compliance, and alignment with regional and national guidelines governing off-campus, travel-related, and enrichment learning activities. Once the Regional Office advisory has been duly approved and issued, the SDO shall be able to act accordingly and release a corresponding division-level advisory, subject to applicable rules and regulations.

We hope for your understanding and cooperation in complying with the prescribed procedure. Thank you for your continued support in providing meaningful learning opportunities for our learners.

Very truly yours,
