NOEL B. LACDIN

OIC - Regional Director

Mines and Geosciences Bureau (MGB)

Department of Environment and Natural Resources (DENR)

Dear Sir:

Good day!

Respectfully, this Office would like to request the issuance of a clearance/certification from your good office certifying that the school site of Dolores Stand Alone Senior High School, located at Calsara Street, Barangay Dolores, City of San Fernando, Pampanga, is not situated within a high-risk area, particularly with respect to geological and geo-hazard concerns such as landslides, flooding, fault lines, liquefaction, or other related hazards.

This request is made in connection with the proposed establishment of the City of San Fernando Science High School, which shall be temporarily housed at the above-mentioned school. As such, compliance with safety, environmental, and risk-assessment standards, as mandated by existing laws, rules, and regulations, is required. The requested clearance/certification shall form part of the documentary requirements to ensure that the proposed site is safe, suitable, and compliant with national standards for educational infrastructure development.

In this regard, we respectfully seek your technical evaluation and official confirmation that the subject area is geologically safe and not classified as a high-risk area, based on available hazard maps, records, and assessments of your office.

Attached herewith are the relevant documents for your reference and evaluation, including the site location map and other supporting papers, as may be required.

We trust in your usual support and assistance on this matter. Should you require further information or clarification, please feel free to contact Mr. Kier S. Jimenez, Project Development Officer I, at 0961-119-9759 or via email at kier.jimenez@deped.gov.ph.

Thank you very much.

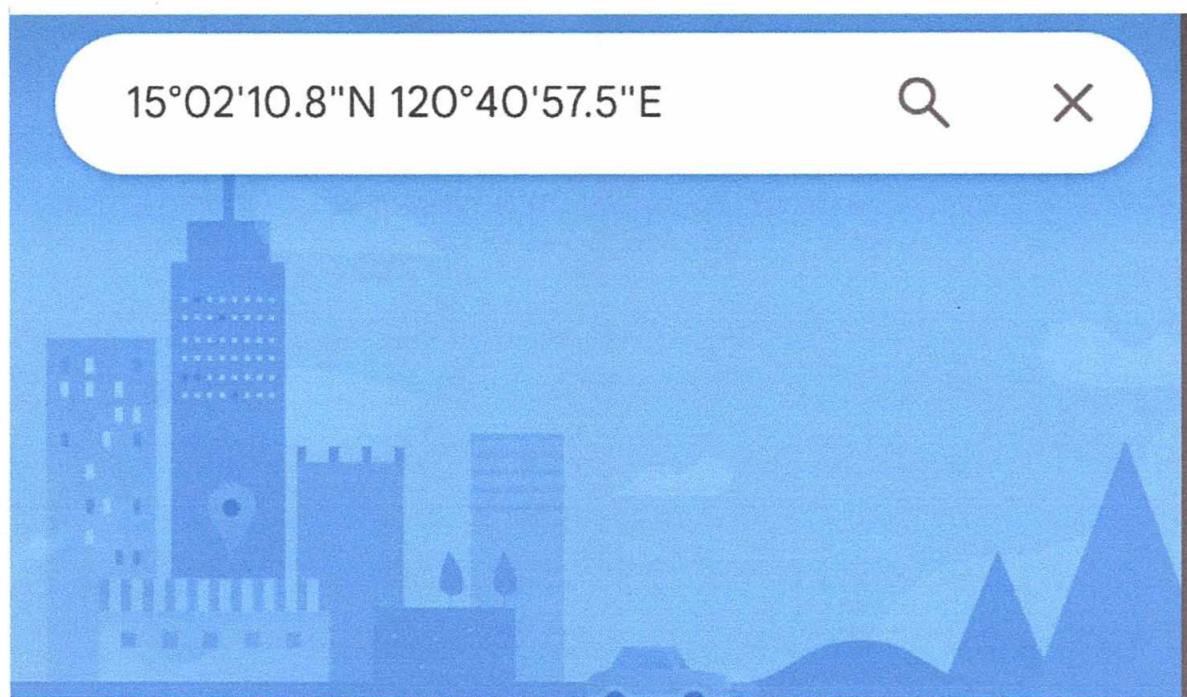

Very truly yours,

SHIRLEY B. ZIPAGAN PhD, CESO V
Schools Division Superintendent
